EXECUTIVE SUMMARY

Since the onset of the COVID-19 pandemic, the County of Alameda has taken extraordinary steps to protect public health while supporting individuals, families, and businesses by addressing the health, economic, and social impacts of the public health emergency. Federal and State emergency funds have been crucial in enabling the County to invest in strategies to mitigate COVID-19 impacts. The County utilized its \$333.2 million in CARES Act funding – a direct allocation to the County and a portion of the State of California’s allocation that was distributed to the County – to finance housing and quarantine of vulnerable individuals, testing, contact tracing, vaccinations, emergency food, economic aid, and other expenses to support the County’s COVID-19 response. The County has also utilized Federal Emergency Management Agency (FEMA) financial assistance primarily for medical, \$19.1 million, and sheltering expenses, \$48.7 million, a total of \$67.8 million. The County received \$147.0 million in Rental Assistant Funds - \$133.8 million from the Federal Government and \$117.2 million from the State of California. The funds were used to provide financial assistance to 9,715 families from April 2021 through May 2023.

The County has also been allocated \$324.6 million in American Rescue Plan Act (ARPA) funds. To guide the use of ARPA funds, the County is utilizing a data-driven, inclusive process to balance immediate public health needs and long-term investments in community recovery, with a focus on equity, in line with the U.S. Treasury’s Final Rule. This report serves as the ARPA Recovery Plan and Performance Report through June 30, 2024, and summarizes the allocations, expenditures, and performance data for the County’s ARPA funds. Future reports will build upon the information in this report. Below is a table summarizing allocation and expenditure data through June 30, 2024:

Category	Allocation	Expenditures	Encumbrances	Remaining Allocation
Public Health	\$149,169,958	\$65,260,091	\$17,677,692	\$66,232,175
Negative Economic Impacts	137,833,750	81,817,510	22,265,424	33,750,816
Public Health Negative Economic Impact: Public Sector Capacity	27,332,357	25,994,421	-0-	1,337,936
Infrastructure	300,000	-0-	-0-	300,000
Revenue Replacement	10,000,000	-0-	-0-	10,000,000
TOTAL	\$324,636,065	\$173,072,022	\$39,943,116	\$111,620,927

USE OF FUNDS

On March 11, 2021, the President signed ARPA into law, which, in addition to other provisions, allocated \$350 billion to State, local, territorial, and tribal governments to fight the pandemic and support families & businesses struggling with its public health and economic impacts, maintain vital public services, and build a strong, resilient, and equitable recovery by making investments that support long-term growth and opportunity. Of the \$350 billion, \$65.1 billion is allocated to counties, and Alameda County’s allocation is \$324.6 million distributed to the County in two tranches. Consistent with the County’s

inclusive approach in budgeting and program development, the Board of Supervisors held a special public listening session to solicit community input on how to allocate ARPA funds, receiving over \$1.3 billion in community proposals. The County incorporated that feedback in approving allocations for the first tranche of ARPA funds. In October of 2022 the Board of Supervisors after hearing updates regarding the American Rescue Plan Act directed staff to develop an allocation for the second tranche of ARPA funds which were allocated in December of 2022. Those allocations included \$171.8 million to be administered by the Health Care Services Agency for the continued provision of COVID testing, tracing, vaccination, and other needed COVID mitigation services, \$51.9 million to the Alameda County Social Services Agency for the continued provision of emergency food and other basic needs countywide, \$29.0 million to highly impacted communities, families, and businesses in the urban unincorporated parts of Alameda County, and \$71.9 million for programming to highly impacted communities, families, and businesses throughout Alameda County. The Board of Supervisors has taken subsequent actions regarding allocations, budgets, programmatic detail, and criteria for programs within these spending categories which are outlined in the more detailed project summaries.

PUBLIC HEALTH

ARPA funding has allowed the County to continue vital Public Health programming to protect residents from COVID-19 and mitigate health effects of the virus. Below is a high-level summary of the Public Health programs funded by ARPA. More detail for each program can be found on the Project Overview pages:

Project Name	Allocation	Expenditures	Encumbrances	Remaining Allocation	Project Subcategory
Vaccination Program	\$28,880,000	\$14,851,152	\$6,841,505	\$7,187,343	1.1
Testing	19,710,000	13,982,733	3,336,467	2,390,800	1.2
Hoteling/Services	37,778,000	27,830,982	4,479,013	5,468,005	1.7
Nursing Registry	10,800,000	5,547,199	93,246	5,159,555	1.1
Communications	4,218,243	2,787,655	613,070	817,518	1.7
Capital Investment-County	45,453,715	235,659	2,270,839	42,947,217	1.7
Other Health Services	2,330,000	24,711	43,552	2,261,737	1.14
TOTAL	\$149,169,958	\$65,260,091	\$17,677,692	\$66,232,175	

Vaccination Program

The vaccination program partners with community providers, with a focus on underserved communities, to ensure all 1.7 million County residents have access to COVID-19 vaccines. ARPA funds are used to contract with mobile vaccination providers who can be deployed to community organizations, schools, businesses, and faith-based organizations across the County. The clinics are typically open to the public and serve between 20-200 people per day. Vaccination programs are a key component in the County's 'Community Coalition' model of COVID-19 response and recovery which aims to partner with trusted

community groups to ensure we are serving our entire diverse population. Vaccination providers also serve homebound individuals and those in congregate care settings.

Testing

The testing program provides free accessible COVID-19 testing to residents regardless of insurance or documentation status. ARPA funds are used to partner with 11 organizations that provide testing and can link residents with linkages to whole person care, social services, and access to COVID-19 treatment. The community testing provided in this program ensures that the most vulnerable communities can address their health needs while minimizing further spread. This program has measures in place to address language and digital access barriers, and look to minimize racial, economic, and health disparities associated with COVID-19.

Hoteling / Services

The hoteling program continues to provide temporary emergency shelter locations for homeless people who are COVID+, exposed to COVID, or at high risk from COVID to prevent community spread of the virus. Services include shelter management, meals, connections to physical and mental health services, and housing support.

Nursing Registry

The County is utilizing registry nurses to reduce the spread of COVID-19 by providing clinical outreach and guidance to at-risk populations, support contact tracing, refer disadvantaged individuals and families for social services, and support the COVID-19 vaccination and testing programs. In addition, the registry nurses investigate, manage, and mitigate outbreaks in schools, workplaces, shelters, health care facilities, and correctional institutions as well as provide health information to all residents within communities disproportionately impacted by the disease. These services support County efforts to reduce community transmission of COVID-19 among vulnerable populations and increase vaccination rates in the County.

Communications

This program has developed and implemented a comprehensive communications plan ensuring that COVID-19 response information is disseminated in a relevant, accessible, and culturally competent manner. Communications include social media, digital newsletters, posters, billboards, websites, and communications with community partners to establish a cohesive brand and align County health messaging. Using Census data, the communications program has targeted priority populations in the County.

Capital Investment

ARPA funding in the amount of \$45.5 million is allocated to capital expenditures in County owned critical health care facilities dedicated to COVID-19 treatment and mitigation. These include 2 hospitals, 2 residential mental health and 12 behavioral health facilities providing health care services to high-risk

populations. These facilities have been assessed and projects are being prioritized to address life safety, critical equipment, and major maintenance needs. The projects are in the preliminary engineering phase which includes cost estimating, written justification for individual projects exceeding \$1 million, and construction schedule coordination with service providers to minimize impacts to the community.

Other Health Services

Other Public Health Expenses are for ongoing COVID and Mpox response and include the following areas: 1) project support for COVID data dashboard displays and data management; 2) COVID treatment support for underserved communities, including management of telemedicine to assist COVID cases with accessing available treatments; 3) provision of an appointment registration platform for testing and vaccinations for Alameda County residents; 4) translation, printing, interpretation, closed caption services for community meetings ASL, online meeting platform support, materials for community outreach and education, subscriptions for web-based platforms and 5) masks for priority individuals, vulnerable populations, low income neighborhoods and sensitive settings that do not have access to the high quality masks recommended on our website.

NEGATIVE ECONOMIC IMPACTS

Project Name	Allocation	Expenditures	Encumbrances	Remaining Allocation	Project Subcategory
Emergency Food	\$36,720,000	\$27,029,071	\$9,668,506	\$22,423	2.1
Child Care Grants	10,900,000	7,749,650	-0-	3,150,350	2.11
ARCH Grants	1,500,000	1,500,000	-0-	-0-	2.3
Emergency Shelters	6,000,000	2,500,000	-0-	3,500,000	2.18
Workforce Training	1,300,000	304,446	445,554	550,000	2.10
CDA Business Grants	5,450,000	4,691,610	174,845	583,545	2.29
Community Financial Services	535,000	330,861	203,389	750	2.37
Community Services Navigators	3,500,000	2,315,873	1,184,120	7	2.19
Minor Home Repairs Lead Abatement	1,950,000	29,261	-0-	1,920,739	2.20
Housing & Child Care	6,000,000	2,425,835	574,165	3,000,000	2.15
Parks and Recreation	\$800,000	13,245	786,755	-0-	2.22
Financial Assistance-Landlords/Tenant	7,700,000	5,973,748	701,252	1,025,000	2:2

Project Name	Allocation	Expenditures	Encumbrances	Remaining Allocation	Project Subcategory
Supervisory Community Grants	15,500,000	14,061,483	-0-	1,438,517	2.37
Arts Grants	1,000,000	1,000,000	-0-	-0-	2.36
East Bay EDA Business Grants	10,000,000	9,695,000	-0-	305,000	2.29
Capacity Building	10,000,000	-0-	-0-	10,000,000	2.37
Violence Prevention	4,500,000	-0-	-0-	4,500,000	2.22
Outreach and Navigation	14,478,750	2,197,427	8,526,838	3,754,485	2.19
TOTAL	\$137,833,750	\$81,817,510	\$22,265,424	\$33,750,816	

Emergency Food

This program includes meal preparation, meal or grocery delivery, food distribution, and support for the Alameda County Community Food Bank to support residents experiencing food insecurity due to the COVID-19 emergency.

Child Care Grants

This program has provided financial support to approximately 1,500 childcare providers impacted by the COVID-19 emergency. The grant program will provide the financial viability of providers to ensure they are able to continue to provide childcare.

ARCH Grants

The Alameda County Responsibility for Community Health (ARCH) program provides direct financial aid to residents who test positive for COVID-19 and do not have sick leave or similar assistance. The \$1,250 one-time stipend is intended to help cover costs and allow the individual to safely self-isolate. Through June 30, 2022, 1,127 County residents received financial assistance, with 75% residing in the cities of Oakland and Hayward with those recipients concentrated in neighborhoods particularly impacted by the pandemic.

Emergency Shelter Grants

The Social Services Agency's Emergency Shelter Grant program provides financial assistance to non-profit shelter organizations that provide service to some of the County's most vulnerable residents, the unhoused. This program provides grants to non-profit organizations that provide free shelter beds to our unhoused population. Emergency Shelter providers have experienced significant negative impacts due to the ongoing COVID-19 pandemic. The grants will allow the shelters to continue playing a critical role in the County's homelessness response system as they provide an immediate place to stay while individuals and families connect or reconnect to housing.

Workforce Training Program

This program is providing job training support to residents who have been negatively impacted by the COVID-19 pandemic. It is also an investment in the County's future workforce as we recover from the public health emergency.

CDA Business Grants

The program is providing direct financial assistance to local businesses in the Unincorporated area of Alameda County who were negatively impacted by the COVID-19 pandemic. This program consists of Small Business Grants, Façade Improvement Loans, and Small Business Assistance. The Small Business Grants provides cash grant assistance to small businesses. The Façade Improvement Loans program provides forgivable loans to COVID-19 impacted businesses in Unincorporated Areas of the County (with a priority on Ashland and Cherryland) to improve vacant commercial properties to assist COVID-19 impacted landlords. The Small Business Assistance program is providing funding for small businesses to expand and entrepreneur training for aspiring business owners. The program is limited to qualifying businesses and are focused on the Eden Municipal Advisory Council communities with a priority for services to Ashland and Cherryland.

Community Financial Services

The program provides financial services, including small business loans, low-cost check cashing, and financial education services, through community-based organizations and/or other non-profit organizations in the Eden Municipal Advisory Council communities in the Unincorporated Areas of Alameda County. Service providers must have a physical office and staff presence in the community and must have a focus on Ashland or Cherryland.

Community Services Navigators

Working in partnership with community coalitions, the community outreach and resource navigation project aims to continue the Alameda County Health's efforts to support community recovery and resilience by focusing on addressing the economic and social impacts of those most severely impacted negatively by COVID-19—Black, African American, Latino/a/x, and other communities of color living in West & East Oakland, the San Pablo Corridor and North Livermore.

These funds create opportunities for small and large organizations to work together at the neighborhood level to support culturally competent, community-led resource navigation services. The project provides funding for comprehensive outreach and engagement as well as one step further in connecting the community to resources they need.

The coalitions will spend time connecting the community to resources and tracking if resources were accessed. In addition, various community events will be held to notify the community of available resources and bring services to where they are.

Minor Home Repairs – Lead Abatement

This program provides funding for repair costs of healthy housing programs in communities hardest hit by the pandemic. Healthy housing programs are intended to reduce environmental hazards in homes that disproportionately impact low-income communities.

Housing & Child Care Capital Development

This program is identifying and funding affordable housing and childcare development projects in the Unincorporated Areas of the County. Priority is given to projects in the areas that experienced the highest impacts from COVID-19.

Parks and Recreation

- \$0.8M to Hayward Area Recreation and Park District, via sub-recipient agreement, to provide recreation services in parks, recreation centers, swim centers, community gardens, historic facilities and address park safety, healthy eating, food production, and other enhanced and equitable recreation services.

Financial Assistance – Landlords and Tenants

Landlord Assistance - \$2.7M Total

- \$1.7M for Foreclosure Prevention Program to provide grants to 40-50 small or low-income property owners at-risk of foreclosure due to non-payment of rent during the COVID-19 eviction moratorium.
- \$1.0M for grants to 150-160 rental housing providers whose tenants were not Emergency Rental Assistance Program eligible or did not apply for ERAP.

Tenant Emergency Financial Assistance - \$5.0M Total

- \$5.0M for Augmented Emergency Financial Assistance Program to cover outstanding rent and other household necessities for 300-325 tenants.

Supervisory Community Needs Grants

These grants are intended to help offset the negative impact of the pandemic on local non-profit and business organizations. \$3.1 million has been allocated to each of the five Supervisorial Districts for Community Needs Cash Aid Grants. To be eligible, an organization must have experienced a negative economic impact created by the COVID-19 emergency from the period of March 1, 2020, to the present. The intent is for grantees to reflect the geographic and cultural diversity of the County with a priority for organizations serving communities disproportionately impacted by the COVID-19 pandemic.

Arts Grants

The Alameda County Arts Relief Grants Program provided direct financial aid to support non-profit art and cultural organizations affected by the COVID-19 emergency. Through an open application process, approximately 200 organizations who meet qualifying criteria received a grant of \$2,000 to \$20,000. The majority of County arts organizations serve disproportionately impacted populations, and the grants are intended to assist the organizations with survival and sustainability.

East Bay EDA Business Grants

This program provided direct financial assistance to small, local and emerging businesses countywide who were negatively impacted by the COVID-19 pandemic. Eligible businesses shall have no more than 500 employees and must be a 'small business concern' as defined by section 3 of the Small Business Act. Grant funds must be used to mitigate financial hardships, however businesses in qualified census tracts may also use these funds to rehabilitate commercial properties or make property improvements.

Capacity Building

The capacity building program aims to support the growth of community partners to improve access to services for all County residents. Community organizations will be given access to training to build and improve their organizations through this program.

Violence Prevention

Violence is a serious public health issue in Alameda County. It impacts not only the individuals and families at the center of an incident, but also present hardships for the surrounding neighborhoods and communities subjected to the presence of violence. The Alameda County Board of Supervisors approved \$4.5M in ARPA funding to be used by Alameda County Public Health Department (ACPHD) for violence prevention and intervention activities. This act amplifies the department's Chief Health Strategist role as convener to promote safety, resilience, and move violence prevention efforts forward.

Outreach & Navigation

The Outreach and Navigation program is dedicated to supporting communities most affected by the COVID-19 pandemic through 19 procurement contracts. These contracts aim to enhance access to essential services, improve equitable outcomes for people of color and extremely low-income households, strengthen support systems for residents in the unincorporated communities of Ashland, Castro Valley, Cherryland, Fairview, Hayward Acres, and San Lorenzo, and provide economic relief to local businesses. The service categories include: capacity-building (six contracts), housing and legal services (one contract), mainstream navigation services (one contract), other community services (five contracts), and affordable housing capacity building throughout the County (six contracts).

PUBLIC HEALTH NEGATIVE ECONOMIC IMPACT: PUBLIC SECTOR CAPACITY

Project Name	Allocation	Expenditures	Encumbrances	Remaining Allocation	Project Subcategory
Health Care Staff	\$25,567,357	\$25,567,357	-0-	-0-	3.1
CDA Staff – Minor Home Repairs	\$1,765,000	\$427,064	-0-	\$1,337,936	3.1
TOTAL	\$27,332,357	\$25,994,421	-0-	\$1,337,936	

Health Care Staffing

Personnel costs for COVID-19 include dedicated positions in the Public Health Department and support staff in information systems, contracts, finance, communications, policy, and homelessness, County staff primarily support the following COVID-19 response services:

- Vaccination Unit – Maintain Points of Dispensing (PODs) for COVID-19 vaccines in neighborhoods with high transmission rates and/or low vaccination rates prioritizing settings such as school districts and care facilities. Staff work closely with community partners for outreach.
- Case Investigation and Community Support Unit – Coordinate contact tracing and case investigation as well as provide clinical guidance and connect individuals and families to care.
- Testing Unit – Establish and manage community testing contracts for vulnerable populations.
- Outbreak Investigations Unit – Investigate outbreaks and support prevention programs in high-risk settings.
- Data Unit – Provides data entry and epidemiology support. Staff also develop and maintain data dashboards.

CDA Staff – Home Repair

Repairs Rental Registry Staff

Funding will support the staffing costs of developing a rental registration database and implementing a proactive rental inspection program to increase healthy housing in the Unincorporated Areas of Alameda County. This will also include the development of policies and procedures for areas most impacted by the pandemic.

Code Enforcement Staff

The project will also provide funding for staffing costs of developing a proactive rental inspection program to ensure homes are healthy and free of lead-based hazards. This program will target communities hardest hit by the pandemic.

Minor Home Repairs Staff – Lead Abatement

Another component of the project will provide funding for staff support for healthy housing repair programs. Healthy housing programs are intended to reduce environmental hazards in homes that disproportionately impact low-income communities.

INFRASTRUCTURE

Capital Project-Sewer Line

\$300,000 for design costs for 5-mile unincorporated Livermore Sewer Extension Project.

REVENUE REPLACEMENT & TO BE ALLOCATED

The \$10 million allocated for revenue replacement represents the standard allowance for revenue replacement. The Board of Supervisors will continue its deliberative, collaborative, and data-driven approach when deciding which government services will be covered by revenue replacement. The County will weigh both immediate needs and strategic investments with a focus on serving those most impacted by the pandemic.

PROMOTING EQUITABLE OUTCOMES

The COVID-19 pandemic has had a significant impact on Alameda County communities. Throughout the pandemic, the County has provided services and supports to protect our most vulnerable residents. The County's approach to allocating ARPA funding continues this approach by seeking to reduce health disparities and allocate resources to communities most in need of recovery. In determining how to utilize ARPA funds and implementing ARPA programming, the County has:

- Utilized data to identify neighborhoods most impacted by COVID-19 and the resulting economic impacts.
- Analyzed COVID-19 demographic data to identify disproportionately impacted communities by geography, age, and race/ethnicity with regards to testing, case rates, hospitalizations, deaths, and vaccination rates.
- Partnered with 'community coalitions' to ensure the delivery of relevant services.

COMMUNITY ENGAGEMENT

In keeping with the County's commitment to transparency and inclusive budgeting, the County encourages and has provided multiple opportunities for public participation in determining how ARPA funds are allocated. On August 17, 2021, the County held a public listening session to solicit community input on how to allocate ARPA funds. The community had the opportunity to provide written and/or public presentations of their proposals. In total, the County received over \$1.3 billion in proposals. The Board has since discussed and taken action on ARPA allocations and related items in public Board meetings. The Board's Municipal Advisory Councils allow unincorporated communities to elevate their unique needs to the Board. As projects are developed and implemented, they will incorporate feedback and input from the community.

LABOR PRACTICES

Workforce practices must be reported for projects pursued under Expenditure Category 5: Water, sewer, and broadband infrastructure. As the County's Infrastructure projects are still in development, labor practices will be described in future reports.

USE OF EVIDENCE

The County prioritizes evidence-based practices and evaluates projects that employ new, innovative approaches. Specific performance data and evidence basis where applicable can be found on the individual project pages.

PROJECT OVERVIEWS

SLFRF Compliance Report - SLT-3067 - P&E Report - Q2 2024
Report Period : Quarter 2 2024 (April-June)

Recipient Profile

Recipient Information

Recipient UEI	ZK45GWUKWMH2
Recipient TIN	946000501
Recipient Legal Entity Name	Alameda County, California
Recipient Type	Metro City or County
FAIN	
CFDA No./Assistance Listing	
Recipient Address	1221 Oak Street
Recipient Address 2	
Recipient Address 3	
Recipient City	Oakland
Recipient State/Territory	CA
Recipient Zip5	94612
Recipient Zip+4	
Recipient Reporting Tier	Tier 1: States, U.S. territories, metropolitan cities and counties with a population that exceeds 250,000 residents
Base Year Fiscal Year End Date	6/30/2024
Discrepancies Explanation	
Who approves the budget in your jurisdiction?	Legislature
Is your budget considered executed at the point of obligation?	No
Is the Recipient Registered in SAM.Gov?	Yes

Project Overview

Project Name: Emergency Shelter

Project Identification Number	11185
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.18-Housing Support: Other Housing Assistance
Status To Completion	Completed less than 50%
Adopted Budget	\$6,000,000.00
Total Cumulative Obligations	\$2,500,000.00
Total Cumulative Expenditures	\$2,500,000.00
Current Period Obligations	\$1,845,000.00
Current Period Expenditures	\$1,845,000.00
Project Description	These funds are to be used to assist those individuals and families who have experienced a negative economic impact due to COVID-19 and require the services of an emergency shelter
Does this project include a capital expenditure?	No
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$0.00
Is a program evaluation of the project being conducted?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	2 Imp Low or moderate income HHs or populations
Secondary Impacted and/or Disproportionately Impacted populations	2 Imp Low or moderate income HHs or populations
Tertiary Impacted and/or Disproportionately Impacted populations	4 Imp HHs that experienced increased food or housing insecurity
Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	These funds are to be used to assist those individuals and families who have experienced a negative economic impact due to COVID-19 and require the services of an emergency shelter
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The program will provide up to \$1,500,000 in grants to non-profit organizations that provide free shelter beds in Alameda County to the County's unhoused population.

Project Name: Other Public Health Services

Project Identification Number	11158
Project Expenditure Category	1-Public Health
Project Expenditure Subcategory	1.14-Other Public Health Services
Status To Completion	Completed less than 50%
Adopted Budget	\$2,330,000.00

Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$68,263.00
Total Cumulative Expenditures	\$24,711.25
Current Period Obligations	\$43,551.75
Current Period Expenditures	\$0.00
Project Description	<ul style="list-style-type: none"> • Other PH Expenses are for ongoing COVID and Mpox response and include the following areas: (a) Project support for COVID data dashboard displays and data management; (b) COVID treatment support for underserved communities, including management of telemedicine to assist COVID cases with accessing available treatments; (c) Provision of an appointment registration platform for testing and vaccinations for Alameda County residents; (d) Translation, printing, interpretation, closed caption services for community meetings ASL, online meeting platform support, materials for community outreach and education, subscriptions for web-based platforms; (e) Masks for priority individuals, vulnerable populations, low-income neighborhoods and sensitive settings that do not have access to the high-quality masks recommended on our website.
Does this project include a capital expenditure?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	2 Imp Low or moderate income HHs or populations
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	<ul style="list-style-type: none"> • These funds and services are meant to support low-income communities and uninsured and underinsured residents as well as the community-based organizations that serve them by supporting them with tools, resources, and data to help with decision making and resident access to resources. Resources such as COVID treatment, testing services, vaccinations specifically target underserved communities that have seen a higher burden of illness, hospitalization, and death.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	<ul style="list-style-type: none"> • We are using data to target HPI communities and areas with higher burden of disease and low vaccination rates. Targeting COVID services and resources in these locations in addition to working directly with community-based organizations and partners who directly serve our target populations, is a logical and reasonable approach to make the most impact. Similarly for Mpox, data is utilized to target health education, vaccination services and other support services to manage cases and contacts.

Project Name: MPX Response

Project Identification Number	11173
Project Expenditure Category	1-Public Health
Project Expenditure Subcategory	1.14-Other Public Health Services
Status To Completion	Not Started
Adopted Budget	\$0.00
Total Cumulative Obligations	\$0.00

Total Cumulative Expenditures	\$0.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	Other PH Expenses are for ongoing COVID and Mpox response and include the following areas: 1) project support for COVID/MPX data dashboard displays and data management; 2) COVID/MPX treatment support for underserved communities, including management of telemedicine to assist COVID/MPX cases with accessing available treatments; 3) provision of an appointment registration platform for testing and vaccinations for Alameda County residents; 4) translation, printing, interpretation, closed caption services for community meetings ASL; online meeting platform support, materials for community outreach and education, subscriptions for web-based platforms; 5) masks for priority individuals, vulnerable populations, low income neighborhoods and sensitive settings that do not have access to the high quality masks recommended on our website.
Does this project include a capital expenditure?	No

Project Name: Violence Interventions

Project Identification Number	11174
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.22-Strong Healthy Communities: Neighborhood Features that Promote Health and Safety
Status To Completion	Not Started
Adopted Budget	\$4,500,000.00
Total Cumulative Obligations	\$0.00
Total Cumulative Expenditures	\$0.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	Violence is a serious public health issue in Alameda County. It impacts not only the individuals and families at the center of an incident, but also presents hardships for the surrounding neighborhoods and communities subjected to the presence of violence. The Alameda County Board of Supervisors approved \$4.5M in ARPA funding to be used by Alameda County Public Health Department (ACPHD) for violence prevention and intervention activities. This act amplifies the department's Chief Health Strategist role as convener to promote safety, resilience, and move violence prevention efforts forward.
Does this project include a capital expenditure?	No

Project Name: Capital affordable housing

Project Identification Number	11177
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.15-Long-Term Housing Security: Affordable Housing

Status To Completion	Not Started
Adopted Budget	\$3,000,000.00
Total Cumulative Obligations	\$0.00
Total Cumulative Expenditures	\$0.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	Ruby Street Apartments is 72- units located in Castro Valley. The development is a mix of studio, 1-, 2-, and 3-bedroom units that will be affordable to households earning 20% (18 units) to 60% (39) and 80% (24) of the area median income. The current project timeline anticipates completion December 2024.
Does this project include a capital expenditure?	No

Current Period Obligations	\$287,796.00
Current Period Expenditures	\$16,957.45
Project Description	Capital improvement for the facilities of County of Alameda. The projects are in the preliminary engineering phase which includes cost estimating, written justification for individual projects exceeding One Million Dollars, and construction schedule coordination with service providers to minimize impacts to the community. Currently, the County estimates the capital investment cost of the sixteen facilities to be approximately \$112 million. The County is planning to use \$45.2 million of its ARPA allocation to cover a portion of the cost.
Does this project include a capital expenditure?	Yes
What is the Total expected capital expenditure, including	

pre-development costs, if applicable	\$0.00
Type of capital expenditures, based on the following enumerated uses	Technology infrastructure to adapt government operations
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	2 Imp Low or moderate income HHs or populations
Secondary Impacted and/or Disproportionately Impacted populations	2 Imp Low or moderate income HHs or populations
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The COVID-19 pandemic has brought to light how inadequate the County's capital infrastructure, buildings, were to respond to the needs of the community. The County is now looking at a plan to ensure that capital investments will be made to County-owned critical health care facilities to respond to the continued impact of COVID-19 through treatment and mitigation.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The plan includes improvements to two hospitals, two residential mental health and twelve behavioral health facilities providing health care services to high-risk populations. These facilities have been assessed and projects are being prioritized to address life safety, critical equipment, and major maintenance needs. The improvements to the facilities includes but not limited to: replacement of windows, electrical systems, HVAC units, Boiler replacements, ADA improvements, hardware upgrades.

Project Description	Issue a Request for Proposals to identify possible affordable housing and child care development Projects in the hardest hit areas of the Unincorporated County. Community meetings to identify priorities have been held, and the RFP is expected to be released this summer.
Does this project include a capital expenditure?	No
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$238,000.00
Is a program evaluation of the project being conducted?	Yes
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	2 Imp Low or moderate income HHs or populations
Is a program evaluation of the project being conducted?	Yes

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Family and Community Emergency Support Services (FACESS) aims to deliver family benefits navigation services to individuals and families with low- or very low-incomes residing in specific communities of Unincorporated Alameda County. The program primarily serves those who have been disproportionately affected by the economic consequences of the COVID-19 Pandemic. The program utilizes a Family Navigator, Project Supervisor, Program Supervisor.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The program employs a comprehensive, needs-based approach. It begins by conducting strengths-based needs assessments, allowing them to tailor assistance to the specific requirements of each family. This ensures that the response is directly aligned with the unique challenges and goals of the recipients. The program also provides emergency relief funds to address immediate financial needs, such as food, rent, and essential supplies.

Project Name: Community Services

Project Identification Number	11189
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.19-Social Determinants of Health: Community Health Workers or Benefits Navigators
Status To Completion	Completed less than 50%
Adopted Budget	\$3,500,000.00
Total Cumulative Obligations	\$3,499,993.30
Total Cumulative Expenditures	\$2,315,873.43
Current Period Obligations	(\$6.70)
Current Period Expenditures	\$311,239.12
Project Description	The program is dedicated to supporting communities most affected by the COVID-19 pandemic through 19 procurement contracts. These contracts aim to enhance access to essential services, improve equitable outcomes for people of color and extremely low-income households, strengthen support systems for residents in the unincorporated communities of Ashland, Castro Valley, Cherryland, Fairview, Hayward Acres, and San Lorenzo, and provide economic relief to local businesses. The service categories include: capacity-building (six contracts), housing and legal services (one contract), mainstream navigation services (one contract), other community services (five contracts), and affordable housing capacity building throughout the county (six contracts).

Does this project include a capital expenditure?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The Rental Minor Home Repair Program will provide grants of up to \$7,500 for minor home repairs in a projected 260 qualifying rental housing units to address the disparity in public health outcomes in low-income communities due to the impact of the Covid-19 pandemic's impact on tenant's ability to pay rent, the eviction moratorium, and rental property owners resulting decrease in revenue and other challenges in repairing properties.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The economic impacts of the Covid-19 pandemic, County health emergency order, and County eviction moratorium reduced rental revenue throughout the Unincorporated County leading to reduced resources available to property owners for making repairs for approximately three years. Given the deferred maintenance baseline for targeted properties entering the pandemic period and estimated normal maintenance costs during the period, establishing a maximum grant amount of \$7,500 is reasonable and property

Program Income Expended	\$0.00
Total Cumulative Obligations	\$21,692,656.59
Total Cumulative Expenditures	\$14,851,151.59
Current Period Obligations	(\$414,645.50)
Current Period Expenditures	\$1,300,867.98
Project Description	<p>Working in partnership with community providers, the vaccination project aims to vaccinate the County's 1.7 million residents against COVID-19, focusing particularly on African-American and Latino/a/x residents in economically disenfranchised neighborhoods hardest hit by the pandemic.</p> <p>Funds will be used to contract with mobile vaccination providers who provide end-to end vaccination services that can be deployed to community organizations, schools, businesses or faith-based organizations across the County. The clinics are typically open to the public and serve between 20-200 people per day, and will be an integral part of the Community Coalitions work described below. Additional vaccination providers will be funded to serve homebound individuals and residents of congregate care facilities. These contractors will primarily serve the ongoing vaccination and booster needs of Alameda County's long-term care facilities (LTCFs). As vaccine response continues to evolve, these providers will also serve affordable housing developments, individuals unable to leave their homes, and other priority settings.</p>
Does this project include a capital expenditure?	No

Program Income Expended	\$0.00
Total Cumulative Obligations	\$17,319,200.66
Total Cumulative Expenditures	\$13,982,733.91
Current Period Obligations	\$0.00
Current Period Expenditures	\$366,325.03
Project Description	<p>The testing project aims to provide free accessible COVID-19 testing to underinsured and uninsured County residents regardless of documentation status.</p> <p>Community testing ensures that the most vulnerable and most impacted communities, essential workforces, and working families can test, take steps to address their health needs while minimizing further spread.</p> <p>The testing project will fund 11 organizations that provide testing with linkages to whole person health care, social services and early access to COVID-19 treatment; response driven testing, and mobile testing. It also funds lab services that can accommodate culturally congruent mobile and response based testing, with registration, resulting with COVID-19 information in multiple access formats. Testing sites reflect the communities they serve and have established trust and relationship to combat COVID-19 misinformation and promote health education and guidance. Services address language and digital access barriers, as well as racial, economic, and health disparities. Sites utilize a diverse battery of testing options (PCR, rapid antigen/PCR, at home kits, etc.) to best meet communities. Testing aims to meet a daily surveillance goal to assess and address emerging COVID-19 spread, variants, and surges.</p>

Secondary Impacted and/or Disproportionately Impacted populations	2 Imp Low or moderate income HHs or populations
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Providing free and accessible COVID-19 testing in the County is key to addressing health disparities resulting from the pandemic as well as implementing a safe reopening plan. Alameda County is committed to ensuring equitable access to testing for all residents with a focus on those most impacted by COVID-19.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Alameda County Public Health Department's COVID-19 testing work employs population specific strategies developed in accordance with California's Tier system and in response to local data on populations at greatest risk and most impacted by COVID-19.

Project Name: Hoteling/Services

Project Identification Number	11159
Project Expenditure Category	1-Public Health
Project Expenditure Subcategory	1.7-Other COVID-19 Public Health Expenses (including Communications, Enforcement, Isolation/Quarantine)
Status To Completion	Completed less than 50%
Adopted Budget	\$37,778,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$32,309,995.24
Total Cumulative Expenditures	\$27,830,981.59
Current Period Obligations	(\$1,501,676.15)
Current Period Expenditures	\$1,483,949.22
Project Description	<p>Project Roomkey (PRK) is part of Alameda County's COVID-19 response to prevent community spread of the virus by providing temporary emergency shelter locations for homeless people who are COVID+ or exposed to safely isolate or quarantine, and for homeless people at high risk for complications from the disease to shelter in place.</p> <p>Services include shelter management including overseeing building operations and contractor relationships (security, transportation, nursing and personal caregivers), meals, social support connections to physical and mental health services, and housing support to identify options and maintain permanent housing. In addition to shelter management, the county-owned Homekey sites also require property management (maintenance, janitorial, housekeeping), and enhanced medical support services for medically frail homeless individuals and families</p>
Does this project include a capital expenditure?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	4 Imp HHs that experienced increased food or housing insecurity
Secondary Impacted and/or Disproportionately Impacted	

populations	2 Imp Low or moderate income HHs or populations
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Project Roomkey (PRK) is part of Alameda County's COVID-19 response to prevent community spread of the virus by providing temporary emergency shelter locations for homeless people who are COVID+ or exposed to safely isolate or quarantine, and for homeless people at high risk for complications from the disease to shelter in place. Services include shelter management and oversight of building operations and contractor relationships (security, transportation, nursing and personal caregivers).
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	the California Department of Social Services (CDSS) secured two hotels in Alameda County (the first two in the state) to provide isolation housing immediately for people experiencing homelessness affected by COVID-19. CDSS contracted with Abode Services to provide wraparound support and with the hotel owners for operations staffing. Alameda County Health Care Services (HCSA), Social Services, and General Services Agencies worked together to establish referral procedures and medical support.

Project Name: Nursing Registry

Project Identification Number	11172
Project Expenditure Category	1-Public Health
Project Expenditure Subcategory	1.14-Other Public Health Services
Status To Completion	Completed less than 50%
Adopted Budget	\$10,800,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$5,640,445.31
Total Cumulative Expenditures	\$5,547,200.08
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	The County will utilize registry nurses to significantly reduce the spread of COVID-19 by providing clinical outreach and guidance to populations most at risk for severe health outcomes, hospitalizations and/or death; investigate reports of individuals with confirmed COVID-19 and warn relevant contacts of their exposure and how to support their health and the health of others; refer economically disadvantaged individuals and families for social services and supports; to investigate, manage and mitigate outbreaks in schools, workplaces, shelters, health care facilities and correctional institutions to prevent future outbreaks; to manage the COVID vaccination program, the COVID testing program and the antiviral administration program involving unsheltered populations; administer COVID-19 tests and vaccinations, and provide health information to all residents within communities disproportionately impacted by the disease (e.g., African Americans/Latinx, unsheltered individuals, children 5 years of age and younger, individuals 65 years of age and older); to provide clinical supervision, patient education and counseling, vaccine management and

	<p>post-vaccination observation at the community-based points of dispensing sites and in the homes of medically vulnerable individuals; to assess and manage the medical needs of individuals living in unsheltered, overcrowded, or congregate settings who require isolation or quarantine due to COVID infection or exposure; to ameliorate economic hardship by submitting documentation to excuse work absences and issue return to work authorizations.</p> <p>The goals are to: reduce community transmission of COVID-19 among vulnerable populations; increase vaccination rates amongst those disproportionately impacted by COVID-19 to the county vaccination average of 80% for all groups/populations.</p>
Does this project include a capital expenditure?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	1 Imp General Public
Secondary Impacted and/or Disproportionately Impacted populations	2 Imp Low or moderate income HHs or populations
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Utilization of registry nurses to significantly reduce the spread of COVID-19 by providing clinical outreach/guidance to populations most at risk for severe health outcomes, hospitalizations and/or death; investigate reports of individuals with confirmed COVID-19 and warn relevant contacts of their exposure and how to support their health and the health of others; refer economically disadvantaged individuals and families for social services ;

	Personnel costs for COVID-19 response include positions dedicated to the Public Health COVID Division, as well as positions in information systems, finance and contracts

Project Description	<p>administration, communications, policy and homelessness.</p> <p>The COVID Division maintains five units of critical response functions to the on-going pandemic. Community Vaccinations Unit staff maintain established Points of Dispensing (PODs) for COVID-19 vaccines in neighborhoods with high transmission and low vaccination rates. Staff prioritize vaccinations in school districts and other vulnerable settings, such as small long term care facilities, conduct outreach and coordinate with community partners, collect and manage data for decision making, distribute vaccine to health providers, and communicate with the public to increase vaccine acceptance and counter misinformation. Case Investigation and Community Support Unit staff manage case investigators who reach out to COVID positive residents, draft and update protocols to align with State and federal guidance, manage community partner contracts, provide clinical guidance, address complex cases and connect individuals and families to resources. Testing Unit staff establish and manage community testing contracts for services accessible to priority populations experiencing access barriers. Outbreak Investigations Unit staff investigate outbreaks, support prevention in high-risk settings including long-term care facilities, homeless/unsheltered populations, mental health facilities, schools, workplaces and correctional facilities. Data Unit provides data entry and epidemiology support, develops and maintains data dashboards, and conducts all case closures submitted through state platforms. The goals of the COVID Division are to prevent COVID infection and mitigate its effect on all residents, with an equity focus on the most vulnerable.</p>
Does this project include a capital expenditure?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Personnel costs for COVID-19 response include positions dedicated to the Public Health COVID Division, as well as positions in information systems, finance and contracts administration, communications, policy and homelessness.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The goals of the COVID Division are to prevent COVID infection and mitigate its effect on all residents, with an equity focus on the most vulnerable.
Number of government FTEs responding to COVID-19 supported under this authority	150

Project Name: Communications

Project Identification Number	11153
Project Expenditure Category	1-Public Health
Project Expenditure Subcategory	1.7-Other COVID-19 Public Health Expenses (including Communications, Enforcement, Isolation/Quarantine)
Status To Completion	Completed less than 50%
Adopted Budget	\$4,218,243.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$3,400,725.48

Total Cumulative Expenditures	\$2,787,654.62
Current Period Obligations	\$351,515.20
Current Period Expenditures	\$262,850.45
Project Description	<p>The communications project will develop and implement a comprehensive communications plan, including a plan for crisis communications, for COVID-19 response.</p> <p>The implementation of the plan will ensure that programs responsible for the countywide COVID-19 response efforts can disseminate relevant and culturally competent communication, including information on the Health Care Services Agency's (HCSA's) external website.</p> <p>The forms of communication dissemination that may be used include social media, digital newsletters, posters, billboards on and around public transportation, websites and existing community partners. Central to the plan is building a cohesive brand and visual identity alignment to integrate all of the programs within HCSA, so that the community better understands HCSA as a single County agency and resource.</p> <p>Using census tract data, the project will focus on communities of color disproportionately impacted by COVID-19. The goal of the project is to build awareness around current COVID-19 resources and guidelines and for the community to see HCSA as the trusted messenger of information regarding COVID-19. This project will also build on existing efforts already underway with our community partners. Key stakeholder feedback will be gathered to improve HCSA's external website and messaging. The communication work will set a tone and look, and provide a familiar voice that educates the public on COVID-19 and continues to deepen and build the public's trust in the agency.</p>
Does this project include a capital expenditure?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	1 Imp General Public
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The communications project will develop and implement a comprehensive communications plan, including a plan for crisis communications, for COVID-19 response. Project Description	<p>The Alameda County Small Business Grants Program will provide grants for small, local and emerging businesses within Alameda County that have faced widespread challenges due to the pandemic, including periods of shutdown, declines in revenue, or increased costs. Eligible businesses shall have no more than 500 employees and are a "small business concern" as defined in section 3 of the Small Business Act.</p> <p>Grants awarded through this program must be used to mitigate financial hardship, including elements such as payroll and benefit costs, employee retention costs, and mortgage, rent, utility, or other operating expenses. Businesses operating in qualified census tracts that have</p>

	been disproportionately impacted by the pandemic may also use these funds to rehabilitate commercial properties or make façade or storefront improvements.
